Film Test **F -**	Frame													
	Metered Density (MD)													
This test strip	Meter reading (MR)													
	Exposure Time (XT)													
	Zone Exposure (ZX) = MR + XT													
	Strip reflectance density (OD)													
Paper Test **P -**	Matching Patch													
	Patch Exposure (PX)													
Calculation	Exposure Difference (XD) = ZX - PX													
	Effective Density (ED) = XD + MD
